

GATHERED TOGETHER FOR FUTURE CAREFUL CONSIDERATION.

Opinions as to the Results of the Recent Tidal Wave and Cyclone Disturbances— "What Will the Harvest Be?"

You'll now pay more for your cotton goods. All the mills at Atlanta, Ga., have issued notice that prices have advanced. Hours for Free-trade.

What a long wait they will have! The strikers at the Carnegie Mills in Pittsburgh have decided to remain out until the Carnegie firm recognizes them as an organization.

Ex-Governor Campbell of Ohio stated in an interview at Chicago that he would have to decline a place in Mr. Cleveland's Cabinet if it were offered him on account of his business interests.

Pretty much every Democrat who wants an office is in favor of an extra session of Congress. This is another way of saying that the Democracy is practically a unit for the extra session.

Speaker Crisp declares that all this talk about an extra session of Congress is premature. The Speaker is a wise man, and knows that there is no party so reckless as the one that fools around a floodgate when the water is high.

This comes from Free-trade England. The Secretary of the Master Cotton Spinners' Federation announces that eight-ninths of the spindles organized in the Federation are now stopped, or are running on half time, affecting 60,000 employees.

Some of the old soldiers who vote the Democratic ticket will be pleased to read this from *The Rochester Advertiser*: The Democratic demand that the fraud be squeezed out of the pension lists has elicited the ancient howl of the Republican press that "the rebel brigadiers are again in the saddle."

This ought to show whether there was any "crookedness" in the Massachusetts vote or not. The recount at the Statehouse shows Governor Russell is elected with a plurality of 2,906. The plurality of Roger Wolcott, Republican, for Lieutenant-Governor, over James B. Carroll, Democrat, is 9,963.

About \$190,000,000 will be required next year for pensions; that is, provided the Democrats don't cut down the rolls of the pensioners. Whether to do that or to raise the needful money by applying the means devised, therefore by legislative legislation is a question that gives brain gals to Democratic statesmen.

*The Nashville Banner* says: "Unquestionably the pension leech which drains the National Treasury should be throttled by the Democracy when it gets in power. The enormous extravagance and wanton waste of the Pension Bureau, much of which is dishonest and fraudulent, should be checked at the earliest opportunity. This is an imperative duty."

A London dispatch says the fears that cholera would not disappear with the advent of cold weather proves thus far to have been justified. It becomes more apparent as the season advances that next summer's battle with the great plague will be far more severe than that of the past year, unless most extraordinary preparations for the struggle are made during the next four or five months.

General Rosecrans, Register of the Treasury, in his annual report to the Secretary of the Treasury emphasizes the necessity of changing the ridiculous competitive examination features of the Civil Service law. You can bet your bottom \$ that "Old Rosey" knows a fraud when he meets it in the road. Mr. Cleveland will do the country a service by making a football of the present so-called Civil Service Commissioners, and Congress will immortalize itself by repealing the law under which the fraud is carried on.

## HELP FOR THE LADIES

"THE LEDGER" CALLS FOR CONTRIBUTIONS FOR A GOOD CAUSE.

Let Liberal-Minded and Generous Citizens Respond With Promptness, to Repair Damages to the Church Furniture.

After years of patient toil, and by the closest economy, the Ladies' Mite Society of the M. E. Church, South, raised a fund nearly sufficient to furnish the new and handsome Church.

Less than three weeks ago the building was dedicated, and the congregation had not fairly settled down in the new house.

Thanksgiving Day all the Ministers of sister churches and many of their members assembled in the new building to offer up thanksgiving and praise to the Giver of all good.

Services had just begun, when, without a premonition of danger, the alarm of fire was given.

Fortunately the large audience fled out into the street without personal injury.

But for several hours there was a heroic struggle between the flames and the flames, the former finally gaining mastery.

After the smoke had cleared away it was found that the handsome building was badly damaged. This, however, is fully covered by insurance.

The carpets, the furniture and other belongings, placed there by the self-sacrificing efforts of the Ladies' Mite Society, were badly damaged also—some of the articles beyond the hope of repair.

On these there was no loss, but the loss is quite heavy, and it falls with crushing effect upon the hearts of the devoted women who labored so long and so lovingly in the work of furnishing the Church.

The LEDGER proposes to assist the ladies in the restoration of the property which was their pride; and to this end it invites contributions from ever-generous citizens.

All contributions left at or sent to this office will be acknowledged promptly, and the money will be turned over to the Treasurer of the Ladies' Mite Society.

Don't be afraid of giving too much; any surplus will be appropriated to a good cause.

Don't be afraid of giving too little; many small sums make a handsome aggregate.

The LEDGER heads the list and wants to see it grow.
